

THAT FIGHT.

Dallas Sports Not Pleased at the Governor's Stand.

They Believe That the Extra Legislature Will Not Stop It.

The Bill is Almost Sure to Take Place—Legislators Too Busy to Attend the Extra Session—An Anti-Fight Law Will Require a Two-thirds Vote.

DALLAS, Tex., Sept. 28.—No fear is felt among Dallas sports that the legislature will pass a law at the special session that will have the effect of stopping the Corbett-Fitzsimmons and other glove contests arranged by the Florida Athletic club.

It is not believed that Gov. Culberson can get the necessary two-thirds vote in each house to make a new law immediately operative. If he fails in this the law can not take effect until ninety days after adjournment. Senator Bowser, of the Dallas district, is absent from the city, but it is known that he will not vote to change the present glove-contest law. Representative Allen declined to talk, but he is counted on the governor's side.

Representative Orr, who lives in the country, is counted with those friendly to the contest. The majority of North Texas members of the two houses are considered friendly to Dallas and the glove contest.

Representative Reiger, of the Dallas City district, says:

"I do not believe the emergency exists for an extra session; prize fights are of nightly occurrence in Texas towns and such fights have been pulled off right along, and why an emergency should arise just at this particular time I do not understand. It will cost the state \$60,000 to indulge in this whim of the governor's, and there is no certainty that the necessary two-thirds in the two houses can be brought to agree that an emergency exists. Moreover, this is the busy time of the year with most people. It is the season I make my money, and when most others also do. Under the circumstances, I do not believe the legislature will assemble in any shape for deliberate work, and, altogether, I do not believe the governor ought to have called the legislature together."

Nine-tenths of the business men of Dallas express similar statements.

SERIOUS CHARGES

Made Against the Recent Management of a St. Louis Female Hospital.

ST. LOUIS, Sept. 28.—Maggie Dalton, the alleged servant girl thief, has made a statement to the police concerning the recent management of the female hospital, the details of which are so shocking as to be almost incredible. She gives the names of four attendants of the hospital at the time Dr. R. M. Kerley was superintendent, and accuses them of having made a practice of selling the bodies of patients who died in the institution. Coffins filled with bricks, she says, were palmed off on the man who buried the dead, and the bodies were shipped away from the city to various medical colleges.

FOUND GUILTY.

Verdict Against the Five People Who Dynamited a Hungarian Boarding House.

WILKESBARRE, Pa., Sept. 28.—Nelson Miller, with two other colored men and two colored women, charged with the murder of four Hungarians, was found guilty of murder in the first degree Friday morning. Miller and his associates in October last, with the use of dynamite, blew up a Hungarian boarding house on the mountain side, a few miles from this city, with the object of robbing the victims, who, it is claimed, had considerable money in and about the place. Sixty persons were in the house at the time and four of them were killed.

PEOPLE TERRORIZED

Over a Wild Beast in Kentucky That Looks Like a Young Lion.

MOREHEAD, Ky., Sept. 28.—Great excitement prevails in the southern part of this county and northern part of Morgan county over the appearance of a wild beast in that territory. Mrs. Powell Wright, of near Paragon, was in town Friday afternoon, and says that about 5 o'clock Tuesday evening she started for a strip of woods near her house for a cow, when the strange animal came out of the strip and crossed a field and entered a dense woods about 200 yards from where it first made its appearance.

Mrs. Wright says she was not more than 100 yards from the animal, and had an excellent opportunity of seeing it, which she describes as being larger than any dog she has ever seen, of a tawny color, and very bushy about the head and shoulders. Mrs. Wright is a very intelligent lady of about 35 years, and says she knows it was a lion. The next morning a 3-year-old calf of a neighbor of the Wrights was missing and a search revealed a portion of its remains near where Mrs. Wright saw the beast the evening before.

The brute then proceeded to demolish everything about the place, but help was summoned and it was killed.

STATE OF SIEGE.

Baracoa, Cuba, Threatened With Extinction.

A Rebel Camp Routed by Spanish Soldiers Near Guantanamo.

Many Recruits From Spain Have Died of Yellow Fever and Numerous Others Are in the Hospitals—A Double Murder on the Streets of Baracoa.

(Special Correspondence.)

SANTIAGO DE CUBA, Sept. 18, via Key West, Fla., Sept. 28.—Official reports from Guantanamo say that on Monday, the 16th, a Spanish column attacked the rebel camp Piedra, between the Felicidad and Rio Saw, occupied by 800 insurgents under leader Gil, and killed eight of the rebels before driving them from their position. Three Spanish soldiers were wounded. When the Spaniards took possession of the rebel camp they found several explosive shells, but they were dug up before any damage occurred.

It is reported here that Antonio Maceo is moving toward the Villas with 6,000 cavalrymen.

Another rumor is to the effect that Jose Maceo is dead of heart disease, but the report is not credited. The government is reticent in the matter, whereas, if the report were true, it would be published officially with much enjoying.

The recent recruits from Spain are not likely to be of any material benefit to the authorities. Of those who arrived a few days ago, many have died and numerous others are in the hospitals. Six succumbed to yellow fever within 24 hours after their landing there. Three of the recruits who are yet able to move about the streets, are, because of their uncleanness and drinking habits, likely to be in hospitals or graves within a short time.

From Baracoa come reports showing that city to be in a state of siege, and threatened with extinction. The insurgents do not allow anything to enter the city from the outlying districts, and if the city is not burned out its inhabitants stand a good chance of being starved out. On the 14th the rebels broke the aqueduct and burned the houses which were recently built. Many business men with their families have left Baracoa. One of them reports a dastardly double murder on the streets of Baracoa, a few days ago. A soldier loaded his gun and without any apparent cause deliberately fired at a corporal, killing him instantly. Another soldier who was with the corporal was also shot and killed.

THE EXPOSITION.

Exhibitors Perfect an Organization—The Woman's Building Opening.

ATLANTA, Ga., Sept. 28.—The Kentucky editors were in complete possession of the exposition again Friday. After they grew weary walking over the grounds and seeing the show they repaired to the barbecue pavilion and revelled in a Georgia barbecue. It was a great feast, and the editors had a royal time of it. They will remain here until Saturday night.

The exhibitors at the exposition have perfected an organization to be known as the Exhibitor's Association of the Cotton States and International Exposition. Several complaints against evil, real or imaginary, were registered, but the meeting was, in all, a harmonious one. The association was formed to further the social as well as the business interests of exhibitors.

Gen. Carlos Diaz Guierrez, the governor of San Luis Potosi, Mex., a special commissioner to the exposition, appointed by President Diaz as his representative is on his way here.

The exposition is now complete and ready for visitors. Thursday night for the first time it was ablaze with lights and was a spectacle of rare beauty. The women's building will be opened with formal ceremonies Monday. A splendid programme will be presented. Speeches will be made by Mrs. Joseph Thompson, president of the woman's board, and Col. John Temple Graves; and an ode will be read by Mrs. Maud Andrews Ohl, of the Constitution.

There will be a rich programme next week. The Georgia Bar association will hold a convention and be addressed by Judge Hornblower, of New York. The National Mining convention will meet; the Texas and Missouri press associations will be here and there will be two women's congresses. The Mexican Village Co. will ask the directors of the exposition for permission to give one of their bull fighting exhibitions. This exhibition is for the purpose of giving the agents of the society for the prevention of cruelty to animals an opportunity to decide whether such exhibitions would be cruel. There will be no bull fight.
